EDUCATION

Doctor of Philosophy

December 2024

University of Maryland, College Park, MD
Course of Study: Environmental Science and Technology
Advisor: Dr. Travis Gallo
GPA: 3.84/4.0

Bachelor of Arts

May 2017

Augustana College, Rock Island, IL
Majors: Biology, Environmental Studies. *Cum laude*
GPA: 3.6/4.0

RELEVANT RESEARCH AND WORK EXPERIENCE

Graduate Research Assistant & PhD Candidate

August 2022 – Current

University of Maryland, Department of Environmental Science and Technology
College Park, MD

- Deploy, retrieve, and manage data from 45 motion-activated camera traps across the District of Columbia, Maryland, and Virginia
- Analyze camera trap data to assess trends in urban mammal diversity and behavior
- Supervise and mentor three undergraduate students to complete data collection, review, and analysis

Graduate Teaching Assistant

September 2021 – March 2022

George Mason University, Department of Environmental Science and Policy
Fairfax, VA

- Prepared pre-lab lecture and discussion topics for three sections of EVPP 109 (Environmental Science I)
- Presented material in an in-person format and supervised student lab activities
- Graded data sheets, lab activity write-ups, and papers using standardized rubrics

Predoctoral Fellow

June 2021 – August 2021

North Carolina Museum of Natural Sciences, Mammal Unit
Raleigh, NC

- Analyzed presence-absence mammal data and life history traits across the contiguous United States
- Compiled historical (1978-2020) survey data pertaining to the endangered Key Largo Woodrat (*Neotoma floridana smalli*) to compile a comprehensive dataset of species distribution and abundance
- Managed databases of mammal detections across the United States and automated data cleaning processes for future surveys

Research Associate

September 2018 – June 2021

Humane Rescue Alliance, DC Cat Count Project
Washington, DC

- Set, retrieved, and processed photos from 1,530 motion-activated camera traps across Washington, DC to create an urban mammal database
- Analyzed presence/absence data to assess habitat associations of mammal species in Washington, DC
- Built an online centralized asset-tracking application to manage and plan field equipment use across the study area using Microsoft Excel, ArcMap, ArcGIS Online, and Survey123

Nature Boardwalk Intern

May 2018 – August 2018

Lincoln Park Zoo, Urban Wildlife Institute
Chicago, IL

- Handled injured or disoriented wildlife in the field, determined if the animal needed medical assistance, and transported injured animals to both on and off-site hospitals
- Monitored wildlife populations using point-count surveys, motion-activated camera traps, and live-traps to aid in long-term population studies
- Conducted research on the symbiotic relationship between wild Black-Crowned Night Herons (*Nycticorax nycticorax*) and captive Red Wolves (*Canis rufus*)
- Served as the crew leader and mentor for a field crew of eight high school and college interns

Program Associate

August 2017 – May 2018

University of Minnesota, Resilient Communities Project
Minneapolis, MN

- Met with city staff, university faculty, and university students to define the scope and timeline of urban ecological research projects to advance the resilience of local Minnesota communities
- Supervised 143 graduate and undergraduate students on twelve research projects across eight academic courses
- Conducted a literature review on the efficacy of experiential education to assess program goals and impact

Bat Research Technician

May 2017 – August 2017

Southern Illinois University, Cooperative Wildlife Research Lab
Lake of the Ozarks Area, MO

- Mist-netted for bats along forested roads, streams and ponds to obtain measurable specimen in paired lit and dark environments to study how anthropogenic light affects bat feeding ecology
- Weighed, sexed, identified age, identified reproductive status, measured right forearm, took blood samples, and measured blood-ketone levels in field-caught bats for analysis

Research Intern

January 2017 – February 2017

Lincoln Park Zoo, Urban Wildlife Institute
Chicago, IL

- Installed, maintained and retrieved camera traps across the urban gradient in the Chicago Area
- Scored photographs from animal traps to determine the relative abundance of small and medium mammals throughout the Chicago urban gradient
- Digitized open water in ArcGIS to create a comprehensive digital water dataset for correlational analysis in studies involving the Little Brown Bat (*Myotis lucifugus*)

Research Assistant

June 2015 – May 2017

Augustana College, Upper Mississippi Center
Rock Island, IL

- Collected and curated carabid beetle specimen using pitfall traps
- Identified and measured trees using dichotomous keys to determine the species composition of urban forests
- Contributed to literature reviews for community technical reports and research presentations

Research Intern

June 2016 – August 2016

Smithsonian Tropical Research Institute, Crofoot Lab
Barro Colorado Island, Panama

- Located white faced capuchin monkeys (*Cebus capucinus*) daily using radio telemetry
- Assisted in collecting primate feeding ecology and group decision making data using the focal tree method
- Collected fecal and urine samples of *C. capucinus*

AWARDS AND HONORS

Dean's Fellowship Award 2024 - 2025 Academic Year
University of Maryland, Department of Environmental Science and Technology

Outstanding Wildlife Student Award, *Honorable Mention* September 2023
Maryland-Delaware Wildlife Society Annual Meeting

Best Graduate Presentation February 2023
Virginia Wildlife Society Annual Meeting

Student Travel Award March 2022
Virginia Wildlife Society Annual Meeting

Mason Core Teaching Excellence Award Fall Semester 2021
George Mason University

2020 Map Gallery – Educational Map Category, *Third Place* July 2020
Environmental Systems Research Institute (ESRI)

Graduate Research Fellowship Program, <i>Honorable Mention</i> National Science Foundation	April 2020, April 2021
Senior Honors, <i>Honorable Mention</i> Augustana College, Biology Department	2016 – 2017 Academic Year
Best Poster, <i>Undergraduate Evolutionary Biology Division</i> Sigma Xi Scientific Research Society Annual National Meeting	November 2016

STUDENT MENTORING

Jess Nadler, 2024 Summer Opportunities in Agricultural Research and the Environment Undergraduate Fellow
 Jishan Chowdhury, 2022-present Undergraduate Research Assistant
 Lara Abedin, 2022-2024 Undergraduate Research Assistant
